

2022 Azimut 78

ADRIATIC EXCLUSIVE SALES

The exteriors of the Azimut 78 give the appearance of being sculptured out of pure movement. From stern to bow, from the sea to the sky, sculptural tension permeates the boat's contours. The hull is testament to the constant quest for novel, innovative shapes. With his creativity and innovative design, Alberto Mancini reinvents and embellishes the accepted shape and nature of a yacht. Through its dynamic lines, static elements become fluid, boat becomes sculpture and yachting is transformed into a form of visionary art.
